

# Taboo Taboo

Lena Philipsson

Taboo, Taboo, Baby I'm not sure about me and you  
Taboo, Taboo, Maybe I don't wanna be a lovers fool  
Taboo, Taboo, I know you'll never treat me right  
Taboo, Taboo, Only trouble is I wanna be with you

I can't seem to sleep at night, I can live this lie  
I know she's in love with you, well baby so Am I  
But you say you'll never leave her soon, you're almost through  
And you swear it is the truth, is that what you told her too?

Taboo, Taboo, Baby I don't know about me and you  
Taboo, Taboo, Maybe we're not good for me and you  
Taboo, Taboo, Why don't you say it's true  
Taboo, Taboo, Only trouble is I wanna stay with you

I'm not good at being bad, I'm bad at being good  
I think you should make a choice, baby I wish I could  
Cause each time I plan to leave you're beggin' me to stay  
Oh you said she's history but you see her to the present day

Taboo, Taboo, Baby I'm not sure about me and you  
Taboo, Taboo, Maybe I don't wanna be a lovers fool  
Taboo, Taboo, I know you'll never treat me right now  
Taboo, Taboo, Only trouble is I wanna be with you

Too many times I've heard the same old line  
It's getting better every telling if you know what I mean  
You heard me call you something' now baby I got you jumpin'  
So won't you stop pretending that you told it it's the end  
So don't you talk too much, I don't want no more jive  
Don't talk to much about me  
I got a reason more for leavin'  
Though I know you don't believe  
So it's either her or me

Taboo, Taboo, Baby I don't know about me and you  
Taboo, Taboo, Well maybe I'm gettin' my message through  
Taboo, Taboo, Oh you know this can't go on  
Taboo, Taboo, How can I be sure if I am right or wrong

You know what I'm talking about

Taboo, Taboo, Baby I'm not sure about me and you  
Taboo, Taboo, Maybe I don't wanna be a lovers fool  
You know it's true  
We know you'll never treat me right  
Taboo, Taboo, Only trouble is I wanna be with you  
Taboo, Taboo, Yeah baby I think I love you  
Taboo, Taboo, Baby I don't wanna be a lovers fool  
Taboo, Taboo, How am I supposed to get my message through to you  
You gotta choose, baby, I don't mean maybe  
Taboo, Taboo, Baby I don't know about me and you  
Taboo, Taboo, I think I love you, baby  
And that's the trouble baby
