

Anthropocentric Suicide

Leng Tch'e

People are speaking they're treated like shit
Come on get over it!
Facing double standart we don't reach
Those who make laws are the ones to corrupt
Double standart
Do what you do but don't come complaint
Control
Double standart
People in lividity (when) we're treated like shit
Intolerable
Because we stare the world going down
Is it upon ourselves to decide?
High time to make them pay the price
Double standart
Do what you do but don't come complaint
Feels like the world turning mad as you see
So? I know don't waste my time
The defloration of it all
Should lead to a fucking reconstruction
Damn we were right and they were wrong
Oh my fucking doll
A vision lost with a sense of failure
Don't speak or you're wrong
Their reign, forever more
Control
Double standart
Abuse and reject
Control
