

Corrosive Rotgut

Leng Tch'e

Retain century in pace
Possession embracing demise
Blind spree preserving attacks
No hate growth to endure the question
Observing the rates for conditioning
Effort desire made of no patterns
Flush away to gutter
Passion depends on revolution
The grave, the nature enlighten
The sick of comfort overwhelmed
Hail the sick, discomfort to feel
Slaying the nature of conditioning
Nor effort desire
Dependence independence
Cliche behavior depending on the way it's written
Power exposed
Within contagion
Pavement all day
First breeding us, leading us to extinction
The beauty of life withdrawals that old distance to
prevail
Seasons of splendor
Scorn for its denial
Retain century in pace
Possession embracing demise
Blind spree preserving attacks
No hate growth to endure the question
