

Mediocrity Contest

Leng Tch'e

Flooded with crap creating overdose
Abundance of junk - creativity is lost
Mediocre at best, just chugging along
Just the same shit in a different coat
It seems like they all enjoy & compete
To rip off bands that had 'the beat'
It just ain't worth a thing
If it ain't got swing
All your riffs sound the same
My attention, just fades!
It seems like they all base their songs
One that one riff that rocks their world
So please make sure there's a difference between two
songs
I can't even hear the difference
Between two bands
Flooded with crap creating overdose
Just the same shit in a different coat
