Remote Controlled

Leng Tch'e

Independence is at an all time low
Personal development thrown out the door
Is it for the cashflow?
Or does one simply not give a fuck anymore?
Robotized by a charted life
We are all remote controlled
For economic growth
Prostitutes – of the mighty dollar
Ill consumed – spirit doesn't matter
Prostitutes – living on a collar
Brain refused – for the mighty dollar
Can't anyone see, what's going on?
Why don't you step out of it and smash the current times?
A life or a currency?
Independency to be revised?
Independence is at an all time low
Personal development thrown out the door
Is it for the cashflow?
Or does one simply not give a fuck anymore?
Can't anyone see, what's going on?
