

# Back On Track

Lenka

New leaf, turn it over  
Watch it grow, unfurl and I follow  
New world, trip me over  
Now I'm down, stay low and I wallow

Let me the first one to apologise  
I know I've been acting crazy in your eyes

It won't take me long  
It won't take me long  
To get myself together  
And get back on track  
Don't know where I went wrong  
Don't know where I went wrong  
Gotta get myself together  
And get back on track  
Get back on track

Ooh-ooh, ooh, ooh  
Get back on track

New heart, and it's broken  
What to do? When trusted, I betrayed  
New door, let it open  
I'll be good, I promise I'll behave  
Oh-oh

Let me take all the responsibility  
I know I can do better if I try

It won't take me long  
It won't take me long  
To get myself together  
And get back on track  
Don't know where I went wrong  
Don't know where I went wrong  
Gotta get myself together  
And get back on track

It won't take me long  
It won't take me long  
To get myself together  
And get back on track  
Don't know where I went wrong  
Don't know where I went wrong  
Gotta get myself together  
And get back on track

Every little choice you make and word you say  
Says something to the way that you are  
But I've been stepping side and running rings around it  
Yeah, I've been hiding deep in the dark

It won't take me long  
To get myself  
(And get) back on track  
Don't know where I went wrong

Don't know where I went wrong  
Gotta get myself together  
And get back on track

It won't take me long  
It won't take me long  
To get myself together  
And get back on track  
Don't know where I went wrong  
Don't know where I went wrong  
Gotta get myself together  
And get back on track  
Get back on track

Ooh-ooh, ooh, ooh  
Get back on track
