

# Crystal Ball

Lenka

Baby, I've got a crystal ball, a crystal ball  
Baby, I see, I see it all, I see it all

And the future looks fine  
We gonna have a time to shine  
Yeah the future looks fine  
We gonna shine

Baby, I got your numbers down, your numbers down  
And I've cornered up to a higher ground, a higher ground

Yeah the future looks fine  
We gonna have a time to shine  
Yeah the future looks fine  
We gonna shine

So shine all little comet  
Future so bright, gotta wear sunglasses  
Ride on a rocket  
Never gonna stop taking those big chances  
Livin' on top of the world with hands in the air, yeah  
Yeah, yeah

Baby, I know your days been dark, your days been dark  
And maybe let's see if we can light it up, let's light it up

Yeah the future looks fine  
We gonna have a time to shine  
Yeah the future looks fine  
We gonna shine

So shine all little comet  
Future so bright, gotta wear sunglasses  
Ride on a rocket  
Never gonna stop taking those big chances  
Livin' on top of the world with hands in the air, yeah  
Yeah, yeah

Baby, I've got a crystal ball, a crystal ball  
Baby, I see, I see it all, I see it all  
And it's gonna be fine  
Yeah it's gonna be fine  
Yeah it's gonna be fine  
Yeah it's gonna be fine

So shine all little comet  
Future so bright, gotta wear sunglasses  
Ride on a rocket  
Never gonna stop taking those big chances  
Livin' on top of the world with hands in the air, yeah  
Yeah, yeah
