

Disappear

Lenka

I will disappear
Go back to the earth
I'll be in the air
And in that dirt
Yeah I will disappear
Go back to the earth
I'll be in the air
And in that dirt

I will lead a long and happy life
Daughter, sister, mother, lover, wife
But who knows what something will take me on
And I will say goodbye to this body and life

I will disappear
Go back to the earth
I'll be in the air
And in that dirt
Yeah I will disappear
Go back to the earth
I'll be in the air
And in that dirt
And all around you
All that's green and blue
All that's bright and clear
I'll be the atmosphere

I will try to learn a thing or two
And play a little loving all I do
But who knows when someday it will all end
And I will say goodbye to you, my friend

I will disappear
Go back to the earth
I'll be in the air
And in that dirt
Yeah I will disappear
Go back to the earth
I'll be in the air
And in that dirt
And all around you
All that's green and blue
All that's bright and clear
I'll be the atmosphere

I'll be the atmosphere
I'll be the atmosphere
I'll be the atmosphere
I will disappear
Into the atmosphere

I will disappear
Go back to the earth
I'll be in the air
And in that dirt
Yeah I will disappear
Go back to the earth

I'll be in the air
And in that dirt

I will disappear
Go back to the earth
I'll be in the air
And in that dirt
Yeah I will disappear
Go back to the earth
I'll be in the air
And in that dirt
And all around you
All that's green and blue
All that's bright and clear
I'll be the atmosphere
