

## Flesh And Bone

Lenka

How did we ever come this far  
We must have had some super power  
To handle the lows  
To handle the highs  
And come out the other side unscarred

Sometimes we feel invincible  
But ohhh, you're only flesh and bone  
But ohhh, you can't do this alone  
And yes, yes I'm afraid you're vulnerable at best  
You're only flesh and bone

Kept telling me that you were fine  
But you're never very good at lying  
You strive for perfection  
Deny that you are human  
But life's gonna trip you up in time

Sometimes we feel invincible  
But ohhh, you're only flesh and bone  
But ohhh, you can't do this alone  
And yes, yes I'm afraid you're vulnerable at best  
You're only flesh and bone

Ohh what if I were made of diamonds  
And ohh nothing would get through to me

Ohhh you're only flesh and bone  
Ohhh you can't do this alone

Ohhh we're only flesh and bone  
And ohh we can't do this alone  
And yes, yes I'm afraid we're vulnerable at best  
We're only flesh and bone
