

# Go Deeper

Lenka

If you only scratch the surface  
Well, you'll only live a scar  
And... and only in the darkness  
Can we see the stars

Someone call the doctor  
'Cause I can't see in your eyes  
Oh, they're the deepest well of wonder  
Where the deepest secrets hide

Come on, we'll go  
We'll go go go go deeper  
We've got to go  
We'll go, you know, we'll go deeper  
And deeper still  
To still the waters where they lie  
And we'll go deeper over time

Once you see the under  
Underneath the mask  
Oh... oh you won't need to wonder  
You won't need to ask

Oh, oh, you know we've got to go  
We'll go go go go deeper  
We've got to go  
We'll go, you know, we'll go deeper  
And deeper still  
To still the waters where they lie

Whoa... Whoa....

It's getting dark down here  
It's getting dark, oh...  
Let me light the way  
I'll light the way for you  
So we can go

We'll go go go go deeper  
We've got to go  
We'll go go go go deeper  
And deeper still  
To still the waters where they lie  
And we'll go deeper over time  
Yeah, we'll go deeper over time
