

# Honeybee

Lenka

You're like a honeybee  
Bringing me something sweet  
But why do you have to sting me?  
'Cause all my skin is fragile when you're near  
But I am feeling numb without you here

So don't you lose your way  
Follow the light of day  
Navigate the radio waves  
And let the wind bring you back to me

Oh I'm like a hummingbird  
Humming away the hurt  
But it won't be long before I fall to the earth  
Because oh I'm feeling numb without you here

So don't you lose your way  
Follow the light of day  
Navigate the radio waves  
And let the wind bring you back to me

Do you know you bring me so much pain?  
Does the way you show you love me feel the same?

So don't you lose your way  
Darling, follow the light of day  
Navigate the radio waves  
And let the wind bring you back to me

And let the wind bring you back to me  
Please let the wind bring you back to me
