

On My Side

Lenka

I never worry 'bout anything
'Cause I've got you on my side
Yeah, I've got you on my side
Why would I worry 'bout anything?
When I've got you on my side
When I've got you on my side

Don't worry 'bout the sky falling down
Birds tumbling to the ground
Waves crashing all around
My heart stopping
'Cause if you stick around
I ain't never leaving town
Keep my ear to the ground
Hear that everything's fine
'Cause I've got you on my side

You shouldn't worry 'bout anything
'Cause you've got me on your side
Yeah you've got me on your side
Why would you worry 'bout anything
When you've got me on your side
When you've got me on your side

Don't worry 'bout the sky falling down
Birds tumbling to the ground
Waves crashing all around
My heart stopping
Or the walls closing in
Us losing everything
All we built crumbling
To be nothing
'Cause if you stick around
I ain't never leaving town
Keep my ear to the ground
Hear that everything's fine
Yeah, if you stick around
I ain't never leaving town
Keep my ear to the ground
Hear that everything's fine
'Cause I've got you on my side

'Cause I've got you on my side
Yeah, I've got you on my side
I've got you on my side
Yeah, I've got you on my side
