

# Real Real Love

Lenka

Get shivers thinkin' about it  
Like a river after a drought  
Get excited scream and shout  
It's real  
So be a giver and gimme a look  
Be a taker  
And take my heart  
Give me a shaker 'cause I am shook  
It's real

It's real, real real love  
It's real, real real love

I'm a rider, riding the wave  
We decided to be brave  
Bought a ticket it till the grave  
It's real  
I got a feeling and I wanna save it  
Got a credit and this is the payment  
A river rushing through my veins  
It's real

It's real, real real love  
It's real, real real love  
It's real, real real love  
Yeah it's real, real real love

It's real, and it's really got a hold on me  
It flows through me  
I know it's real, not like the other times  
When everything was hyper real, not really real  
There's a difference when you know it's really real, real real love  
(What you see behind the broken line, the words were never spoken  
Keep the mystery alive it's real real love, not like the other times  
you knew  
You'd end up broken, feel the river flow to  
Ocean, all the real real love you're holding)

It's real, real real love  
Yeah it's real, real real love  
It's real, real real love  
Oh it's real, real real love

Real real love  
Real real love  
Real real love  
Real real love
