

Wrote Me Out

Lenka

You're the star of your own movie
And I am the star of mine
You play the part, sing the tune and speak the dialogue
And you write every storyline
And you wrote me out

Let it be said, it's all in my head
And you will forget about me
I never got through
Try playing with you
But I am not in your story
Ooh, I don't know, I don't feel anything, anymore
I am not here, and I am not there
'Cause I am not in your story

Ooh oh oh oh oh oh

I should have seen it coming
By the way that you looked at me
With those eyes distracted by the lonely life you live
Well, I am not welcome clearly
Yeah you wrote me out

Let it be said, it's all in my head
And you will forget about me
I never got through
Try playing with you

But I am not in your story
Ooh, I don't know, I don't feel anything, anymore
I am not here, and I am not there
'Cause I am not in your story oooh

I was so blind to think that you'll be mine
And I could be yours
But now it's time that I stopped to write my own story
And I will not write a part for you
Ah-oo

Let it be said, it's all in my head
And you will forget about me
I never got through
Try playing with you
But I am not in your story

Let it be said, it's all in my head
And you will forget about me
I never got through
Try playing with you
But I am not in your story
Ooh, I don't know, I don't feel anything, anymore
I am not here, and I am not there
'Cause I am not in your story
