

When I don't wanna talk  
Yeah, I swear that's all you wanna do  
But when I text and I call  
Then I don't hear back from you  
And when I almost let go  
It's like you just know what to do  
To keep me hanging on  
Stuck on your every move

If I wait, then you're gonna wait double  
It's not love, it's a power struggle  
And we keep going around and around  
I think I figured you out

You like games, games, games  
Way more than you like me  
You like games, games, games  
But that's all we'll ever be  
'Cause you like games  
And I don't wanna play no longer  
Game over

You used to try and find a way to write all your behaviors off  
'Cause you always used to say that it's hard for you to trust  
No  
And it hurts to not stay  
I already gave so much  
But the only way to get it back  
Is to give you up

If I wait, then you're gonna wait double  
It's not love, it's a power struggle  
And we keep going around and around  
I think I figured you out

You like games, games, games  
Way more than you like me  
You like games, games, games  
But that's all we'll ever be  
'Cause you like games  
And I don't wanna play no longer  
Game over
