

Better Than You

Lenny Cooper

Huh, people are running 'round here with them guns
Actin' like they shoot like Kobe
Boy, you can't shoot that thing at all
I bet shooby dooby shoot better than you boy
Pop-tart got a better aim on it
Ain't nobody playin' son
I got a band on that, come on JC, let's get it

She'll knock the heart out the park a mile away
With a smile on her face, big ass, little waist
Cutest little thing you done ever seen
She get mad, she get mean, thinking she gonna turn green
Don't piss her off and we gonna be good
Me and baby spent a whole lot of time in the woods
Just huntin' and fishin', huh huggin' and kissin'
All she watch is snap thinkin' I'm gonna come up missin'
Listen, she got ammunition, arsenal
When we in public she carry my personal
Shorty got a 40 on her hip like a ball
I made her take it off, cause if I have to get involved
This evidence going straight in your face
Oh and baby, I'm gonna catch a murder case
You talkin' trash to a tiger, I'll bet on a cat
Pray for that pussy 'cause I know baby better than that

I got a pump shotgun and a 4 wheel drive
38 special and a hot wheel nine
Colt 45 and an AR too
But I bet my old lady shoot better than you
I got a pump shotgun and a 4 wheel drive
38 special and a hot wheel nine
Colt 45 and an AR too
But I bet my old lady shoot better than you

My shawty riding shot gun
She a hot one
Quick to pull the trigger
Yeah, she know how to pop one
Deer better fear
It's best they stay clear
Cause if she's near this pine here I promise she can drop one
She country made
Don't like the city lights
She'd rather be in a field jamming Hank all through the night
And I'm okay with that
Beating off the beaten path
To have a girl that knocks it out the park when it's time to bat
380, 45, she's nasty with the 9
Trespass will be your ass if you step across the gun line
My pack of wolves will check you if you step up in the hunt line
Dirtified country in the holler, peaceful in the pines
With dirt roads we riding
Jay blazin', we vibin'
Winding side to side 'til the hills we climbing
She gets a little closer as the night goes on
Just in case she got the night scope on

I got a pump shotgun and a 4 wheel drive
38 special and a hot wheel nine
Colt 45 and an AR too
But I bet my old lady shoot better than you
I got a pump shotgun and a 4 wheel drive
38 special and a hot wheel nine
Colt 45 and an AR too
But I bet my old lady shoot better than you
