Right now it's only stage lights and them late nights
A lot of time with nothin but you on my mind
I know I'm barely at home and it's hard on us
Just the thought of you being alone makes it more tough
But it lightens me up to know that I have a good girl
One who's there for me and completes my whole world
Who loves what I do, supports my music
When I want to throw the towel in she says
"Baby, you can do this"
She has so much faith on what I can create
She says, "Let the haters hate, who gives a damn what they think." So
I keep my head up, keep my life clean
Work hard as I can so we can live our dream
This kind of lifestyle is different, and everything is changing, a roller coaster that rides fast, and a little crazy
But I promise baby, I won't be gone for long because before you know it, hell, I'll be comin back home

Yeah here I am going down this long road
Different night, different place to one old show
I'm thinkin of you and I just want you to know, I won't be gone for long
I'll be comin back home. I'll be comin back home

When we first met we were taking pictures in stormy weather, never would'a thought we would have a chance to be together
Look at us now, we just happy as ever
Never would'a thought my life could get any better
Until I met you, I never knew love was true, til cupid shot me up, now my heart is filled with you
With us in love having fun on them late nights
Walkin on a train trussle kissin in the moonlight
Holdin hands, walkin in the waves and sand
It was the first time I said, "I love you," and that's when our future began

Time moves on, we bout to have a family and I'm a proud dad knowing you gonna have my baby
Wouldn't want it any other way, if I never met you then my life would be in a haze
I can't explain but I'm in a love zone
In your heart is where I want to be and where I call home
Yeah here I am going down this long road
Different night, different place to win a show
I'm thinkin of you and I just want you to know, I won't be gone for long
I'll be comin back home I'll be comin back home

Right now I'm sittin here on this tour bus, flippin through the photo book and I'm seein you and our baby girl
And I'm tellin you right now I miss home
Bein on the road is fun and all, but ain't as fun, without you and my

little baby girl
I just wanna let you know, I love both y'all from the bottom of my heart, and I will be coming back home

Yeah here I am going down this long road
Different night, different place to win a show
I'm thinkin of you and I just want you to know, I won't be gone for long
I'll be comin back home I'll be comin back home
I won't be gone for long
I'll be comin back home. I'll be comin back home
