Lenny Cooper

Givin' y'all some country (Givin' y'all some country, country)  
I'm a redneck  
I'm country (Country)  
I ride-ride big talk  
I ride-ride-ride-ride-ride big talk  
Givin' y'all some country (Country)

I stay dedicated, music bleedin' out my soul  
Kill a show across the map everywhere that we go  
When I'm on the stage full focus when I take control  
Heads bobbin' when my music comes out the console  
Makin' fans happy with the back wood jams  
I speak the truth when I say I shook a million hands  
All the people that hate I could give a damn  
I love what I do and I love who I am  
We ain't rappin' 'cause we country  
We ain't country 'cause we rappin'  
Everyone label what we do and how we actin'  
Askin' if we practice what we preachin' on the stage  
And say the legends of the past are rollin' over in their graves  
Now that's not what I see  
Let's agree to disagree  
The outlaws were outcasts when they planted their seed  
I'm just gonna be me and stand for what I believe  
They watch our music grow tall into a big oak tree

It's funny how far I've come from my first song  
They said I'd never make it guess what I proved 'em wrong  
Mud Digger was a hit and it's still standin' strong  
Uploaded instantly and took the internet by storm  
My music is my hook and it's what people love  
You take one listen and your head is where it's stuck  
Got great and gritty and so take you a puff  
It's what everyone is talkin' bout and can't get enough
