

# Shindiggin'

Lenny Cooper

I got a truck that don't stop, a house in the sticks  
Work hard for what I own and I ain't never gonna quit  
I live a low budget lifestyle I eat what I kill  
Do you do the do the same thing  
'Cause I ain't ashamed to admit that  
I'm a redneck I get it how I get it  
No doubt that I'm about my country living  
I'm a redneck, I get it how I get it  
Chillin' while I'm grillin' and a beer I'm steady sippin'

I got no worries for the day, I put my problems all away  
Work is over for the week, and now it's time to play  
Pull my cell phone out, text them party at my house  
Then before you even know it I got people all around  
The ladies lookin lovely, they ready to get all muddy  
Drivin Chevrolet, hittin mudholes I have made  
I can't believe my eyes, it's a blessing in disguise  
Ladies drivin big trucks with big tires  
All my bros all know that this the hot spot  
Two one one for the weekend with the tailgate dropped  
I'm a top notch, you know I got this country game on lock  
I'm a beast of a king like a Chevy big block  
My salute goes out for people fightin for us  
'Cause while we havin' good times there's people dyin for us  
I thank God everyday I must admit I'm blessed to say that I'm an  
R-E-D-N-E-cock and I live it the southern way

I got a truck that don't stop, a house in the sticks  
Work hard for what I own and I ain't never gonna quit  
I live a low budget lifestyle I eat what I kill  
Do you do the do the same thing  
'Cause I ain't ashamed to admit that  
I'm a redneck I get it how I get it  
No doubt that I'm about my country living  
I'm a redneck, I get it how I get it  
Chillin' while I'm grillin' and a beer I'm steady sippin'

Now I know that everyone likes to have a dream about doin' big things  
With a pocket full of green and I ain't talkin' no dro  
I'm talkin payin' as you go  
With no worries with the money, make it rain up in the country  
Buy a big old house that cost a couple hundred grand  
With a couple hundred acres just to say I got some land  
I build a big old pond, the biggest I can get  
And say the hell with the river I got my own lake to fish  
And have a driveway that looks like a car lot  
And be proud to say that I own everything I got  
And all that success was from my album sellin'  
Would be the reason I'm doin' things, cause my bank account swellin'  
But in reality, that really ain't my lifestyle  
It's just a dream of me doin' big things  
And I'll always stay country til my very last breath  
'Cause I'm an R-E-D-N-E-cock, that's right a redneck

I got a truck that don't stop, a house in the sticks  
Work hard for what I own and I ain't never gonna quit  
I live a low budget lifestyle I eat what I kill

Do you do the do the same thing  
'Cause I ain't ashamed to admit that  
I'm a redneck I get it how I get it  
No doubt that I'm about my country living  
I'm a redneck, I get it how I get it  
Chillin' while I'm grillin' and a beer I'm steady sippin'  
I'm shindiggin
