

# Human

Lenny Kravitz

When all of my days are done  
Of pleasin' everyone  
I'll finally have begun

Our time on Earth ain't gonna last forever  
I'm on my journey, I won't be afraid  
No more confusion and aggravation  
What is this life for? I'm gonna win

I'm gonna live my truth in this life  
I am not gonna live a lie  
'Cause I came here to be alive  
I am here to be human

I'm gonna keep my head to the sky  
Gonna walk each step with pride  
'Cause I came here to be alive  
I am here to be human

When I'm free to shine my light  
I'm ready to take flight  
The past is out of sight

I'm on the move and I shall endeavor  
No one is perfect and I won't be ashamed  
My body's yearning for transformation  
What is this life for? I'm gonna win

I'm gonna live my truth in this life  
I am not gonna live a lie  
'Cause I came here to be alive  
I am here to be human

I'm gonna keep my head to the sky  
Gonna walk each step with pride  
'Cause I came here to be alive  
I am here to be human

Our time on Earth ain't gonna last forever  
I'm on my journey and I won't be afraid  
No more confusion and aggravation  
What is this life for? I'm gonna win

I'm gonna live my truth in this life  
I am not gonna live a lie  
'Cause I came here to be alive  
I am here to be human

I'm gonna keep my head to the sky  
Gonna walk each step with pride  
'Cause I came here to be alive  
I am here to be human

I'm gonna live my truth in this life  
I am not gonna live a lie  
'Cause I came here to be alive  
I am here to be human

I'm gonna keep my head to the sky  
Gonna walk each step with pride  
'Cause I came here to be alive  
I am here to be human
