

It Won't Feel The Same

Lenny Kravitz

I could make a billion dollars
Build a castle by the sea
Watch the clouds go by for hours
Live a fantasy where everything is how I see

I could have the power
Of the world and all it brings
But it won't feel the same
It won't feel the same

I'd live in a great big tower
In a world of luxury
But it won't feel the same
It won't feel the same
The same without you

I could walk this earth forever
I could have eternal life
I want you right there beside me, yeah
'Cause I need your strength
And baby, how I need your life

I could have the power
Of the world and all it brings
But it won't feel the same
It won't feel the same

I'd live in a great big tower
In a world of luxury
But it won't feel the same
It won't feel the same
The same without you

We've been down this road together
And I know that this feels right
And I do believe without you right by my side
But it won't feel the same
So, baby I am gonna fight

I could have the power
Of the world and all it brings
But it won't feel the same
It won't feel the same

I'd live in a great big tower
In a world of luxury
But it won't feel the same
It won't feel the same

I could have the power
Of the world and all it brings
But it won't feel the same
It won't feel the same

I'd live in a great big tower
In a world of luxury
But it won't feel the same

It won't feel the same
The same without you

I could have the power
Of the world and all it brings
But it won't feel the same
It won't feel the same
The same without you
