

# All My Love

Lenny

Figure out the riddle, Don't be fooled  
There is more behind do what you see  
Figure out the riddle, Cause when he lied  
My world was blown, I nearly died

All my love is gone  
All my love is gone  
All my love is gone  
and it feels so good to be free again...

Try and steal the lime from my light  
Sabotage my life for your fame  
You'll never cleanse your shit filled veins  
Identity crisis is your name

Lying won't make you look good  
Everyone always comes undone  
Clench your fists and puff your chest out yeah  
Manipulate, we know you're about

All my love is gone  
All my love is gone  
All my love is gone  
and it feels so good to be free again...

Only in my own time did I find your desire  
Had crossed into my lake that had dried  
Everybody sees you're full of doubt  
Kiss me with your lips I dare you, go on go on go on do.

All my love is gone  
All my love is gone  
All my love is gone  
and it feels so good to be free again...

Figure out the riddle  
Don't be fooled  
There is more behind do what you see

Figure out the riddle  
Don't be ruled  
By what you're told, cause I'm not sold

Figure out the riddle  
When I opened my eyes  
The truth was often disguised

Figure out the riddle  
Cause when he lied  
My world was blown,  
I nearly died...
