

Letter To You

1. Hello dear friend

Dm F

Now I know you so much better

C G

I hope you'll get the message

Dm F

You will read the letter

2. And if it's alright

I will start from the beginning

The day you caught my heart

Got the whole world spinning

3. We were one of a kind

I was the artist, you the mastermind

Two strangers walking

in the same direction

4. You're still the one

You're the king of hearts, the winner

And I am just a lonely soul,

a sinner

F

*: So would you take a chance right now?

Am

Would you make a step, come over here

F

Just like I always thought you would

Am

You would wanna be closer than near

G

... But you don't.

C

Am

R: So are you feeling alright, are you feeling O.K.?

F

Dm

Never mind the time, never mind the space

C

Am

And if I'm here for you, are you there for me?

F

Dm

C

If I see what I want to see, will you still be a part of me?

5. I still see the light

When you filled my heart's desire

But you were walking on water

And I was on fire

6. And after the flood

You stood strong and I was broken

Your chest untouched

And mine - wide open

*:
