

## Rumours

Leo Sayer

I heard some things about you  
I can't believe it's true  
I heard the flame don't burn bright as it used to  
I heard some things about you  
I know they must be lies  
Don't turn your face away, baby  
When I need to see your eyes  
'Cos I keep hearing rumours  
People telling me rumours  
I keep hearing those rumours  
Seems like everybody's my best friend  
Rumours, don't go believing rumours  
I swear it's only rumours  
Listen babe, I don't want our love to end  
(It's a shame - they talk, they talk, they talk)  
I heard some things about you  
Suspicion coming on

I need some answers woman  
Don't tell me nothing's wrong, nothing's wrong  
I heard some things about you  
The way you're treating me  
You give your love to someone else  
When it used to come to me  
Oh I've been hearing rumours  
Everybody's saying rumours  
I don't wanna hear no rumours  
How come everybody wants to be my best friend  
I don't believe it no, oh  
(It's a shame - they talk  
They talk, they talk  
They talk, they talk  
They talk, they talk:)  
Now I've got so many friends  
I've never had before  
And you're the only friend I want  
I don't want no more  
All these rumours I hear  
I can't believe they're true  
And they're trying to tear me  
Oh no, they're trying to tear me away from you  
Rumours, I don't believe it babe  
Rumours  
They're just whispers in the wind  
They've got it all wrong  
Everybody's wants our love to end  
Rumours, I don't believe in those  
Rumours, lots of big rumours  
Rumours, it's only vicious rumours  
I don't want our love to end  
I don't want our love to end  
I don't want our love to end
