

# Alpine

Leo Stannard

Sometimes I go in a haze stuck inside a daydream  
Colors never fade away as long as I can see you  
Walk on water til' it breaks gettin' tired of waiting  
Face all frozen like lakes feelin' what we need to

I thought about the mountain road  
I thought about the sunset breeze  
With somebody to call my own  
With somebody to ride with me  
I wanted to release my love  
I wanted to get in too deep  
So try until we can't no more  
Follow in the alpine trees

Until we get no  
More, more, more, more  
Until we get no  
More, more, more, more  
Until we get no  
Until we get no

I wanted to release my love  
I wanted to get in too deep  
So try until we can't no more  
Follow in the alpine trees

Don't be scared of the dark, the moon is never leaving  
Won't fall back to the start as long as I can see you  
We've got two hard and heavy hearts that are barely beating  
So let's take it way too far, feeling what we need to

I thought about the mountain road  
I thought about the sunset breeze  
With somebody to call my own  
With somebody to ride with me  
I wanted to release my love  
I wanted to get in too deep  
So try until we can't no more  
Follow in the alpine trees

Until we get no  
More, more, more, more  
Until we get no  
More, more, more, more  
Until we get no  
Until we get no

I thought about the mountain road  
I thought about the sunset breeze  
With somebody to call my own  
With somebody to ride with me  
I wanted to release my love  
I wanted to get in too deep  
So try until we can't no more  
Follow in the alpine trees

Until we get no

More, more, more, more  
Until we get no  
More, more, more, more  
More, more, more, more  
Until we get no  
More, more, more, more
