

# Drifting

Leo Stannard

Can't get my feet off the ceiling  
Everything upside down  
Looking for some kinda reason  
But can't find the solid ground

I wanted highs from the weekend  
Wanted to feel them all  
My velvet sky got me dreaming  
But now I'm seeing it fall

Sometimes hearts get better  
But sometimes you gotta break  
Hurt can't keep us closer  
We're drifting further away  
We're drifting

Straight out the dark outta nowhere  
We're heading the wrong way round  
And I can't pretend that I don't care  
As I watch the lights go out

I wanted highs from the weekend  
Wanted to feel them all  
My velvet sky got me dreaming  
But now I'm seeing it fall

Sometimes hearts get better  
But sometimes you gotta break  
Hurt can't keep us closer  
We're drifting further away

Oh  
We're drifting like we're lost  
We're drifting like we can't get back  
On that one way track now

Sometimes hearts get better  
But sometimes you gotta break  
Hurt can't keep us closer  
We're drifting further away

Oh  
We're drifting like we're lost  
We're drifting like we can't get back  
On that one way track now
