Lost

Leo Stannard

Broke man
Good man
Hundred million dollar man
Everybody's part of this chain
And I'm laying here
Not having to decide which kind of man I want to be
Because I am part of this game
And I tried to
Let you know what I know
But I know you

Oh you dive so deep
So you're never going to see
And leaving no real sign of a trace
Being swallowed in the sea now
It's getting hard to breathe now
But nothing's really sparking a change
And I tried to
Let you know what I know
But I know you

Go live your life in your own way
Don't stand, don't watch how he behaves
And I told you to go there
Go live your life in your own way
I can't stand to watch how he behaves
And I told you to go there

Why aim low
When the world is all yours?
Break away and just get out of this cage
Be free now you're never going to see
How your life is really going if you stay this way
And I tried to
Let you know what I know
But I know you

Go live your life in your own way
Don't stand, don't watch how he behaves
And I told you to go there
Go live your life in your own way
I can't stand to watch how he behaves
And I told you to go there

Laying so low under layers of dust
And the cold air seeps through cracks
That you must not see
If this life is all that you know
And the laying gets tough
When there's acts of grace
And your love is not real
And for now you'll never really see
But you've got to break eventually

Just don't get lost
Just don't get lost
Just don't get lost

Just don't get lost
Just don't get lost
Just don't get lost
Just don't get lost
And I told you
(Just don't get lost)
To go there
(Just don't get lost)
Go live your life in your own way
(Just don't get lost)
Don't stand, don't watch how he behaves
(Just don't get lost)
And I told you
(Just don't get lost)
To go there
(Just don't get lost)
Go live your life in your own way
(Just don't get lost)
I can't stand to watch how he behaves
(Just don't get lost)
And I told you
(Just don't get lost)
To go there
(Just don't get lost)
So wake up from this sleep
Just don't get lost
Just don't get lost
Just don't get lost
