

# Born Again

Leon Bridges

[Verse]

Spinning around, spinning around  
Feeling numb, I can't feel, removed from what I'm in  
But closing my eyes, I feel closer to you  
I find peace in the valley of your truth  
I try to be still, chasing the memories inside

[Chorus]

Feeling born again  
Feeling joy again  
When all else fails, your love will last forever  
Your love will last forever

[Bridge]

Sit still, take it slow  
Soak it in, even though  
I miss the people that I love  
But it feels good to be alone

[Chorus]

Feeling born again  
Feeling joy again  
When all else fails, your love will last forever  
Your love will last forever  
Feeling born again  
From end to end  
When all else fails, your love will last forever  
Your love will last forever

[Bridge]

Sit still, take it slow  
Soak it in, even though  
I miss the people that I love  
But it feels good comin' home, yeah

[Instrumental Outro]
