

# Never Satisfied

Leon Bridges

I can't get you off my mind  
Let it last all the time  
Hope our bodies meet again  
Hope I get your love again  
Baby, your love again, oh

I keep on dreaming 'bout the time we made  
Such a shame, the way it slips away  
I check my phone, you know, it's all I do  
'Cause I don't wanna miss a call from you

You know I never get enough, I'm never satisfied  
I want a thousand days and a million nights  
And I don't mind waiting, but you're hurting my pride  
That's the way that it goes, you know I'm never satisfied

I can't fill this empty space  
Never felt so outta place  
Bring some water to this well  
It's thirsty, baby, can't you tell?

You know I never get enough, I'm never satisfied  
I want a thousand days and a million nights  
And I don't mind waiting, but you're hurting my pride  
That's the way that it goes, you know I'm never satisfied  
When it comes to you

You know I never get enough, I'm never satisfied  
I want a thousand days and a million nights  
And I don't mind waiting, but you're hurting my pride  
That's the way that it goes, you know I'm never satisfied  
Never satisfied
