

# Simplify

Leon Bridges

Used to play make-believe  
On the banks of Trinity  
Jump from stone to stone, just my pops and me  
Never knew what I had found  
In that girl from Corpus Town  
She was my first love, wonder how she doing now

What if I had loved her? What if I had stayed?  
What if I'd never put my money on a chase?  
I wish that I could go back sometimes  
Simplify this life, ooh  
Simplify this life

We were children on the loose  
Collecting scars and the bruises  
Crossing railroad tracks just to get to school  
Played all day into the night  
Had to be back by dinnertime  
When Mama's voice rang out, we knew it was time

I can smell the gumbo every Saturday  
Makes me wanna come home when I'm far away  
I wish that I could go back sometimes  
Simplify this life, ooh  
Simplify this life

Heaven's not hard to reach  
Baby, all we need is to simplify  
Don't know what tomorrow's gon' bring  
Baby, all we need is to simplify  
Travel both the land and sea  
I see all I need is to simplify  
Fall in love when everything leaves  
Baby, all I need is to simplify

Maybe all I need is to-  
This life, this life  
In this life  
Simplify this life  
Simplify this life
