

Shouldn't complain, but this function's dry  
Don't wanna small talk or socialize  
What are you doing tonight?  
Are you alone by yourself?  
What are you doing tonight?  
Come on over

Let yourself in  
You got the key  
You know you know you got a hold on me  
Let yourself in  
You got the key  
You know you know you got a hold on me

(Come get me right) we don't need nobody  
Baby, you and me tonight  
(Come get me right) we don't need nobody  
Baby, you and me is a vibe

It's been a minute  
I miss that face  
I miss your smile and the wild things you say  
What are we doing tonight?  
Let's take a dip in Forrest Hill  
What are we doing tonight?  
Come on over

Let yourself in  
You got the steam  
You know you know you got a hold on me  
Let yourself in  
You got the key  
You know you know you got a hold on me

(Come get me right) we don't need nobody  
Baby, you and me tonight  
(Come get me right) we don't need nobody  
Baby, you and me is a vibe, yeah

Two step, slide  
Let's rock all night  
Two step, slide  
Let's rock all night

Let yourself in  
You got the steam  
You know you know you got a hold on me  
Let yourself in  
You got the key  
You know you know you got a hold on me

(Come get me right) we don't need nobody  
Baby, you and me tonight  
(Come get me right) we don't need nobody  
Baby, you and me is a vibe
