

# Change Up

Leon Else

I don't drink or smoke or fuck nobody  
I don't really know why I came to this party  
I just wanna be at home next to your body  
But I know you won't be back at the apartment

And now I'm in the bathroom doing lines again  
I told myself I wouldn't, now I'm high again  
I had to, I've been listening to all your friends  
Telling me you told 'em we've come to an end  
I'm the last to know

Baby how you gonna go and change up  
You've been treating me like I'm a stranger  
Why you wanna go throw away love  
All I wanna do is try and save us  
Baby how you gonna go and change up  
You've been treating me like I'm a stranger  
Why you wanna go throw away love  
All I wanna do is try and save us

Why you change up  
Tell me why you change up

Didn't mean to do it, now my world is blurry  
Tryna drink the pain away but it ain't working  
I just wanna call you up and say I'm hurting  
No one's ever made me feel so fucking worthless

And now I'm in the bathroom doing lines again  
I told myself I wouldn't, now I'm high again  
I had to, I've been listening to all your friends  
Telling me you told 'em we've come to an end  
I'm the last to know

Baby how you gonna go and change up  
You've been treating me like I'm a stranger  
Why you wanna go throw away love  
All I wanna do is try and save us  
Baby how you gonna go and change up  
You've been treating me like I'm a stranger  
Why you wanna go throw away love  
All I wanna do is try and save us

Why you change up  
Tell me why you change up  
Why you change up

With a face full of that snow  
The pain make my heart go  
Bada-boom, bada-boom, bada-boom  
Bada-boom, bada-boom, bada-boom  
But I just don't wanna go home  
'Cause I'm scared of being alone  
Missing you, missing you, missing you, oh

Baby how you gonna go and change up  
You've been treating me like I'm a stranger

Why you wanna go throw away love  
All I wanna do is try and save us  
Baby how you gonna go and change up  
You've been treating me like I'm a stranger  
Why you wanna go throw away love  
All I wanna do is try and save us

Why you change up  
Tell me why you change up  
Why you change up  
Tell me why you change up
