

Couldn't Do It

Leon Else

Ooh, I was standing there naked
And ooh, I was so intoxicated
And ooh, I knew if you found out you'd hate it
But ooh, you left so you really can't say shit to me

I'm just tryna move on
I'm just tryna have fun
Cos I'm not the one you want
I can't just sit at home

So I went out tonight and I met someone and we went back to my place
We were kissing and touching and all I could think about was your face
I was drinking to stop me thinking about you but it don't help
I don't want to be with no one else

I just couldn't do it, oh no, oh no
I just couldn't do it, oh no, oh no
I should be calling you up to tell you I don't need you love
But I just couldn't do it, oh no, oh no

Ooh, you said you were done with me
And ooh, don't know why I feel guilty
When ooh, I have someones hands on my body
But ooh, it still feel like I'm cheating on you

I'm just tryna move on
I'm just tryna have fun
Cos I'm not the one you want
I can't just sit at home

So I went out tonight and I met someone and we went back to my place
We were kissing and touching and all I could think about was your face
I was drinking to stop me thinking about you but it don't help
I don't want to be with no one else

I just couldn't do it, oh no, oh no
I just couldn't do it, oh no, oh no
I should be calling you up to tell you I don't need you love
But I just couldn't do it, oh no, oh no

So I went out tonight and I met someone and we went back to my place
