

Dance

Leon Else

Dance, dance, dance, dance, dance

Running in the rain again
Got the black dog chasing me
He follows everywhere I go
Oh, won't he let me be
Fire in my brain again
Armageddon over me
Voices whisper in my ear
You know you'll never be free
You know you'll never be free

So I dance
Dance

You can try and lock my hands and feet
You could throw away the key
Suck the life out of my soul
And hold it over me
Let the clothes fall from your skin
You gotta set your body free
Music in the atmosphere
And it's calling out to me

And it's calling out to me
And it's calling out to me

Dance
Dance
Dance
Dance

You can try and lock my hands and feet
You could throw away the key

Suck the life out of my soul
And hold it over me

Dance, dance, dance, dance, dance
Dance, dance, dance, dance, dance
Dance, dance, dance, dance, dance
