

Easy Love

Leon Else

Lying here, 11 PM
There it is, that same old feeling again
It's got me doing things I don't wanna to do
I need some easy love to get me over you
I need some easy love to get me over you

And every time I lose a piece of myself to somebody I don't even know
I tried to stop, I really tried to stop, gave it up for a week a week ago
But tonight I got weak and I needed someone to make me go numb, I need to go numb
Can you make me go numb?

I need some easy love to get me through the night
I need someone to come and take you off my mind
I need some kind of distraction, it don't matter who
I need some easy love to get me over you

Easy love
Easy love
Easy love
Easy love
Easy love
(It's got me doing things I don't wanna to do
I need some easy love to get me over you)

Lying here, 11 AM
Can't believe last night I did it again
I don't know why I try and block out this hurt
With this easy love 'cause it just makes it worse
With this easy love 'cause it just makes it worse

And every time I lose a piece of myself to somebody I don't even know
I tried to stop, I really tried to stop, gave it up for a week a week ago
But tonight I got weak and I needed someone to make me go numb, I need to go numb
Can you make me go numb?

I need some easy love to get me through the night
I need someone to come and take you off my mind
I need some kind of distraction, it don't matter who
I need some easy love to get me over you

Easy love
Easy love
Easy love
Easy love
Easy love
(It's got me doing things I don't wanna to do
I need some easy love to get me over you)

I need some easy love to get me through the night
I need someone to come and take you off my mind
I need some kind of distraction, it don't matter who
I need some easy love to get me over you

Easy love
Easy love

Easy love
Easy love
Easy love
(It's got me doing things I don't wanna to do
I need some easy love to get me over you)
