

# My Kind Of Love

Leon Else

She thinks I've got a heart of stone  
Because I left her all alone, lonely tonight  
She thinks I'm gonna break her heart  
I tell that I'm not, but maybe she's right

And I know I can't hold you like he does  
I don't have those emotions in me  
And it's true I can't love you like he does

But it's my kind of love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love  
My kind of love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love  
My kind of love

She thinks I'm just an animal  
She thinks I'll throw this thing we have into the fire  
She tells me that I will die alone  
I tell her I won't but maybe she's right

And I know I can't hold you like he does  
I don't have those emotions in me  
And it's true I can't love you like he does

But it's my kind of love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love  
My kind of love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love

My kind of love, my kind of love, my kind of love  
It's a deeper love, it's a darker love  
My kind of love, my kind of love, my kind of love  
It's a deeper love, it's a darker love

And I know I can't hold you like he does  
I don't have those emotions in me  
And it's true I can't love you like he does

But it's my kind of love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love  
My kind of love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love  
I'll show you love, show you love, show you love

My kind of love, my kind of love, my kind of love  
It's a deeper love, it's a darker love

My kind of love, my kind of love, my kind of love  
It's a deeper love, it's a darker love  
My kind of love  
It's a deeper love, it's a darker love  
My kind of love, my kind of love, my kind of love  
It's a deeper love, it's a darker love  
My kind of love, my kind of love, my kind of love  
Love
