

# Protocol

Leon Else

The sweat upon your forehead  
Cotton ones upon the floor  
Peeling off the plastic  
Stale scent of perfume  
The guilt I always get from you  
Filling up this bedroom

Stop stop stop stop  
Its not like you wasn't warned like I have said before  
Shut the fuck up  
When the truth is on your tongue

When you show me your soul but I don't wanna know  
That's not the protocol said leave your heart at home  
In the dark of the night come and lay down your bones  
Sure you can fall in love no need to let me know  
Rules are there for a reason, if you can't fight what your feeling  
Please shut the door as your leaving  
That's not the protocol said leave your heart at home

Where'd you learn your new moves  
Where'd you go when I can't get through  
Can they do the things I do?

Stop stop stop stop  
Its not like you wasn't warned like I have said before  
Shut the fuck up  
When the truth is on your tongue

When you show me your soul but I don't wanna know  
That's not the protocol said leave your heart at home  
In the dark of the night come and lay down your bones  
Sure you can fall in love no need to let me know  
Rules are there for a reason, if you can't fight what your feeling  
Please shut the door as your leaving  
That's not the protocol said leave your heart at home

Stop stop stop stop  
Don't wanna feel this too  
Want nothing more with you  
Stop stop stop stop  
Please put away your soul  
It's not the protocol  
Stop stop stop stop

Try to show me your soul but i don't wanna know

Try to show me your soul but I don't wanna know  
That's not the protocol said leave your heart at home  
In the dark of the night come and lay down your bones  
Sure you can fall in love, no need to let me know  
Rules are there for a reason, if you can't fight what your feeling  
Please shut the door as your leaving  
That's not the protocol said leave your heart at home
