

Signs

Leon Else

I need a sign tonight
I could do with some help
Give me a ray of light
I'm struggling with myself
California is sunny but it keeps on raining in my head
I need a sign, sign

I need a sign, sign, sign
Just to keep me going
I need a sign, sign, sign
Just to keep me hoping
I need a sign, sign, sign
Cos I'm here on the edge
I need a, I need a, sign

Don't wanna fight tonight
Just lay down my head
I wanna be alright
No more self hatred
I'm so tired of dealing with all of these voices in my mind
I need a sign, sign

I need a sign, sign, sign
Just to keep me going
I need a sign, sign, sign
Just to keep me hoping
I need a sign, sign, sign
Cos I'm here on the edge
I need a, I need a, sign

I am broken, I am so broken
I don't wanna get out of my bed today
I am tired, I am so tired
Cos I have been trying to find a way
But I can't, but I can't
But I can't accept defeat
Now I'm down on my knees and I look to the stars begging please

I need a sign, sign, sign
Just to keep me going
I need a sign, sign, sign
Just to keep me hoping
I need a sign, sign, sign
Cos I'm here on the edge
I need a, I need a, sign
