

## FAR FETCHED

Leon Thomas III

I keep giving and giving  
You keep taking and never forgiving  
When you gon' grow up and put it behind us  
Paid for my mistakes in Benzes and diamonds  
250 fronted like you was my artist  
5g just to cross the Atlantic  
We sat in silence for almost two hours  
You scrolled your phone and we fucked when we landed  
Oh, I was gon' come through for you  
Had to spin the block for you  
Had to spin the block and let you by my sight  
'Cause once you belong to me, you belong to me for life  
Belong to me for life, yeah

She got dreams of love and marriage  
But that's far-fetched, far-fetched  
'Cause if you we don't work out, girl, that's a large check  
If we don't work out, girl, that's a large check  
She got dreams of love and marriage  
But that's far-fetched, far-fetched  
'Cause if you we don't work out, girl, that's a large check  
Girl, that's far-fetched

Far-fetched  
I flew you to Europe, we had rich sex  
I put you in Hermes and the Balmain  
First time that you've been on a PJ  
You complain that you don't fuck with small planes  
No more Vickie, no La Perla  
That pussy too expensive, you ain't eating no burgers  
I ain't ever sent the Uber, I sent you the car service  
And you still rock the same purses  
And you still use my Netflix  
Still stalking my 'Gram, I should get you arrested

She got dreams of love and marriage  
But that's far-fetched, far-fetched  
'Cause if you we don't work out, girl, that's a large check  
If we don't work out, girl, that's a large check  
She got dreams of love and marriage  
But that's far-fetched, far-fetched  
'Cause if you we don't work out, girl, that's a large check  
Girl, that's far-fetched

It's like you don't know what to do, when it's genuine  
When they walk away from you, I fill the shoes they in  
It's like you don't know what to do, when it's genuine  
When they walk away from you, I fill the shoes they in  
Oh my God, she got dreams of love and marriage
