(Eh yeah)
(Eh yeah)
(Eh yeah)
I wanna do you right

I've been feeling lately, you've been talking all crazy
3 am and I'm waiting, you've been up and your waiting
Can you do a little math for me, got you all crack for me (yeah)
Whiskey got me feeling loose
About to be a ride for you (ooh)

When I pull up and swing over, I wanna do love
When I pull up and swing over, I wanna do love
You in lost in me and me for you
My whole day is all about, my whole day is all about

When I'm with you girl it takes all day
Girl I swear your body is like not there
My level awakes, my peak go to places
Girl cause you got that

Shit I can't forget (ohh), don't care who I'm with (ohh)
Body on a thousand honey (ohh)
Whenever you wake up, I wanna go, I wanna do
When freak comes over tell me when I'm over
Feeling like forever then I'm better, I'm better

When I pull up and swing over, I wanna do love
When I pull up and swing over, I wanna do love
You in lost in me and me for you
My whole day is all about, my whole day is all about

When I'm with you girl it takes all day
Girl I swear your body is like not there
My level awakes, my peak go to places
Girl cause you got that

Only wanna do you right, I wanna do you right
I wanna do you right, I wanna do you right
I said I only wanna do you right, cause girl you got that

When I'm with you girl it takes all day
Girl I swear your body is like not there
My level awakes, my peak go to places
Girl cause you got that
When I'm with you girl it takes all day
Girl I swear your body is like not there
My level awakes, my peak go to places
Girl cause you got that
