

Spend It All

Leon Thomas III

I'm taken for

Jack on the rocks keeps my vision on blurry
Rushing it down cause I'm here on a hurry, oh
Let's check another spot where you wanna go, wanna go (where you wann
a go)
Got the driver on front, I'm not whipping down don't worry
Kiss on the road got my neck til it hurts me, oh
Let's check another spot where you wanna go, wanna go (go)

Girl I got here this world flying this high there, oh
The night is like in Sony and just for you my tongue is free

I spent it all on you
I spent it all cause I don't wanna see you more
I spent it all on you
I spent it all cause I don't wanna see you more

Know you like the magic more, the boring quarter
Kneel your body to make holy water, oh
Tell where you wanna go, wanna go
Sit and kiss on the fly will make the sky disorir
Sundae the eyes nobody's more than worthy, oh
Just tell me where you wanna go, wanna go (eeh)

Girl I got here this world flying this high there, oh
The night is like in Sony and just for you my tongue is free

I spent it all on you
I spent it all cause I don't wanna see you more
I spent it all on you
I spent it all cause I don't wanna see you more

Go, go
I'll be stuck on go when I get there
Treat your body right no it ain't there
I'll be stuck on go when I get there
Hey, go, go
I'll be stuck on go when I get there
Treat your body right no it ain't there
I'll be stuck on go when I get there (yeah)

I spent it all on you (hey, yeah)
I spent it all cause I don't wanna see you more (see you)
I spent it all on you (on you, yeah)
I spent it all cause I don't wanna see you more (more)
