

Sunken Place

Leon Thomas III

You turn me to a non believer
Got me stressin' and you supposed to be my stress reliever
Used to tell her that I never leave her
Got the same zip code and I never see her

Turned into a savage too
Heard you gotta ass, don't you got an attitude?
Heard you got new titties, now you actin' brand new
Then you dropped out of FAMU
I don't understand you
I don't, I don't, I don't, I don't understand you
Only had an unique boy, your shit stayed through
Hurts to hear you really hurt, you should of known
It was all good just a year ago

Can't work, taking work off
Two mixed girls in the crib with they shirt off
I could have a threesome
But I rather jerk off to the bitches that you servin'
Livin' on the iCloud

Can't remember my passwords
And I can't see anything past hers
I hate that I deleted our texts with our last words
You're the reason that I'm running backwards (damn)

Got me in a sunken place
Got me in a sunken place
Got me all lost in space

Got me in a sunken place
Got me in a sunken place
Got me all lost in space

How you supposed to learn if you make the same mistake twice?
How could I move on if I text you every late night?
Even on a great night, text you on just shit you just ignore
So I come on and record and I sing about it all

I pray that your girls playing with you in the car
'Cause I know she love that Leon, 'cause my shit is super hard
And just the thought of you and on, it makes me super hard
I break it down, I grind it up, find me in the clouds

I always think about you when I'm climbing down

Can't remember my passwords
And I can't see anything past hers
I hate that I deleted our texts with our last words
You're the reason that I'm running backwards (damn)

Got me in a sunken place
Got me in a sunken place
Got me all lost in space

Got me in a sunken place
Got me in a sunken place

Got me all lost in space

All our rhythm is a loving, baby

Remember when I [?]

Ooh, oh, oh, oh, oh, oh, oh

[?] one time

Damn, I feel [?]

Had it so bad, told you that I wasn't ready

We give up and I'm still not ready

Thinking real hard how to make it baby

Ooh, ooh, yeah

Got me in a sunken place

Got me in a sunken place

Got me all lost in space

Got me in a sunken place

Got me in a sunken place

Got me all lost in space
