

Die For You

LÉON

The party's over, time to go
Spinnin' lights, the music dies, you never showed
Wine stains and glitter on the floor
Grab my shoes, always the last one out the door

And for a moment, it all stopped
My head, my heart, like I forgot that you are gone
And then the feelin' brings me back again

I'm losin' all my senses every night
Darlin', don't you know that I would die, die for you?
And I don't wanna want somebody new
Darlin', don't you know that I die every night for you?
I cry for you

Above me, I can see the stars
And it feels like we are miles and miles apart
And I know we said we shouldn't talk
But I lost a friend and maybe that's the hardest part

For a moment, it all stopped
My restless heart, like I forgot that you are gone
And then the feelin' brings me back again

I'm losin' all my senses every night
Darlin', don't you know that I would die, die for you?
And I don't wanna want somebody new
Darlin', don't you know that I die every night for you?
I cry for you

I hate when everybody's goin' home
And I'm on my, all on my own
I say, "Couldn't we just have one more, before we go?"
Don't wanna go

I wanna feel like I'm flyin'
I wanna stay in the cloud city
Oh, when I fall into my bed
It takes me up again, and

I'm losin' all my senses every night
Darlin', don't you know that I would die, die for you?
And I don't wanna want somebody new
Darlin', don't you know that I die every night for you?
Darlin', don't you know that I die every night for you?
I cry for you
I die for you
