

# Falling Apart

LÉON

Sayin' I'll come back  
Might make it easier to leave  
Need to run free for a while  
I need some time to breathe

Yeah, I see years go by  
And it scares me sometimes  
I'm so afraid to live wrong  
And end up bein' on my own

What do you do when you love someone  
But feel like you can't go on, no, you can't go on?  
What do you do when you love so hard  
That you just, you float apart, and you're fallin' apart inside?

Maybe I ain't  
Someone I used to be  
Baby, something's changed  
In the way you look at me

There's somethin' in your eyes  
You seem unsure somehow  
And so do I  
But I could never lie to you, no  
No, I don't wanna lie, just tell me

What do you do when you love someone  
But feel like you can't go on, no, you can't go on?  
What do you do when you love so hard  
That you just, you float apart, and you're fallin' apart inside?

And I have been runnin' all my life  
And I could go for miles, and miles, and miles  
I could go for miles, and miles, and miles

And I could keep on tellin' lies  
Say everything's gon' be alright  
But I think it's fair to say we've tried  
I think it's fair to say we've tried

What do you do when you love someone  
But feel like you can't go on, no, you can't go on?  
What do you do when you love so hard  
That you just, you float apart, and you're fallin' apart inside?

What do you do when you love someone  
But feel like you can't go on, no, no, you can't go on?  
What do you do when you love so hard  
That you just, you float apart, and you're fallin' apart?  
You fall apart, yeah, you fall apart
