

# Head And Heart On Fire

LÉON

Like a memory that's fading  
A face I used to know  
A song I knew the words to, a long long time ago  
Like I said that pass you by  
High up in the summer air  
That takes you to a place  
Oh, you're just like a dream

And you, you set my head and heart on fire  
And you, wish I could go back to that night

There was something kind of magic  
The way you walked in through the door  
Through a crowded room, you come in  
I swear my feets studs to the floor  
When you made your way up to me  
Did I know you from before?  
I think you had me from that moment  
I wish I never let you go

And you, you set my head and heart on fire  
And you, wish I could go back to that night  
And you, you'll live forever on my mind  
And you, you set my head and heart on fire

Ooh, ooh, hmm
