

In A Stranger's Arms

LÉON

Weeks go so slow
We haven't spoken one word
Been an endless summer
I go out and get home
My neighbors leaving for work
I don't mind them judging

I got nowhere to go
Call everyone I know
'Cause I go off when I'm alone
Just get me drunk and hold me in the sun

They say heartbreak always hurts the worst the first time
You feel you're gonna die, you're blind, it's hard to see
That in time you will find that you've moved on
Then you'll risk it all to feel it all like the first time
In a stranger's arms

Spending money
On things I know I don't need
Cut my hair to change me
I'm smoking again
Know how much you hate it
But you weren't here to tell me

I learned to live alone
My home is not a home
No, I don't feel it on my own
And when I leave I'm keeping all lights on

They say heartbreak always hurts the worst the first time
You feel you're gonna die, you're blind, it's hard to see
That in time you will find that you've moved on
Then you'll risk it all to feel it all like the first time
In a stranger's arms

Oh, in a stranger's arms

I don't want to know if you have moved on
And you don't want to know if I have met somebody new
It's not as if I wanna run right back to you
I just want time to pass so I get over you

They say heartbreak always hurts the worst the first time
You feel you're gonna die, you're blind, it's hard to see
That in time you will find that you've moved on
Then you'll risk it all to feel it all like the first time
In a stranger's arms

Oh in a stranger's arms
Ooh, ooh, I'll get over you
Oh, I'll get over you
In a stranger's arms
