

## Léon's Lullaby

LÉON

You're for me  
The only one, all I need  
I so deeply wanna be  
Forever want  
Some keep saying  
We're way too young  
With you, you're my world  
I'm safe and sound

My friend  
Take me to a place I know that I've never been before  
My love  
You take me to the place I've only heard of  
Stay, stay, you stay here with me  
Stay, stay, you stay here with me

Your touch on my skin  
My head on your chin  
Late night out  
Then a cab to your place, oh no  
Nobody knows me like you  
Oh this love is true  
You always want me  
And I want you too

My friend  
Take me to a place I know that I've never been before  
My love  
You take me to the place I've only heard of  
Stay, stay, you stay here with me  
Stay, stay, you stay here with me
