

# Look Like That

LÉON

It was a rush of a fever that got me bad  
It was the season of blue nights that never lasted  
Was so easy to go there, get lost in your eyes  
And now to see you, it shakes me  
Breaks me a little inside

And I'd be lying to say, you don't cross my mind  
(From time to time, let myself go there, I)  
Wonder if there's somebody your heart desires now?  
Been turning corners in case you could pass me by  
'Cause I don't want the small talk, know how you're doing now

Uh, I notice when you look like that  
It makes me wanna touch you  
And it takes me back  
To when you were mine in the dark  
And when you look like that  
Baby, it's a hit to the heart (Heart)  
A hit to the heart

I keep my eyes on the drink that is in my hand  
Though you could cut through the tension  
It's all in the air  
And you see me, know I'm here  
Just like thunder, coming over me  
It's on my face  
Babe I just can't see you go

Oh, oh, no

'Cause when you look like that  
It makes me wanna touch you  
And it takes me back  
To when you were mine in the dark  
Yeah, when you look like that  
Baby, it's a hit to the heart  
A hit to the heart, a hit to the heart, a hit to the heart

I can't think clearly  
And the music is playing so loud  
Can't turn away now  
When you're moving, you're moving like that  
What does it matter if it hurts just a little?  
Oh, don't be stupid now, just meet me in the middle

When you look like that  
It makes me wanna touch you  
And it takes me back  
To when you were mine in the dark  
And when you look like that  
Baby, it's a hit to the heart  
A hit to the heart, oh, a hit to the heart  
When you move like, a hit to the heart
