Moonlight

LÉON

Moonlight on my bedside
I've been beating on myself
Far too long

Blue eyes on my right side
I love you
But I still feel so alone

Following the feeling
Takes me down, down, down
Let it get the best of me
Each time around

Tell me of the day that is waiting
How the heart is ever-changing
You see a dawn that's waiting
We just gotta ride it out

Get up in the morning
When the world's still at ease
Not a sound

I feel I gotta secret
And I keep it to myself
All the time

Tell me of the day that is waiting
How the heart is ever-changing
You see a dawn that's waiting
We just gotta ride it out
