

No Goodbyes

LÉON

Late, in the night time
Try to ease my heavy heart
Lips tasting bitter
Then I stumble in the dark
Guess I saw it coming
Baby I just had to know
So afraid, I'd always wonder
If I should stay or I should go

I'm not good at goodbyes
I never was
And I don't know why
Tell me, tell me that it was love
That it was real
Remember all
That you have me
If you still want me
Baby, I'm not good at goodbyes
I never was
And I don't know why

Late, in the night time
I was standing by your door
Somebody in there
Gotta know if you're alone
Tears, I feel 'em coming
Baby I just need to know
But you say I shouldn't be here
That it's time for me to go

I'm not good at goodbyes
I never was
And I don't know why
Tell me, tell me that it was love
That it was real
Remember all
That you have me
If you still want me
Baby, I'm not good at goodbyes
I never was
And I don't know why

Over now
There's nothing I can do to change your mind
Over now
There's nothing I can do to make it right

I'm not good at goodbyes
I never was
And I don't know why
Tell me, tell me that it was love
That it was real
Remember all
That you have me
If you still want me
That you have me
If you still want me

That you have me
If you still want me
Baby, I'm not good at goodbyes
I never was
And I don't know why
